

## Unit 7: Weather around the world

# Learnanywhere

Which places in the world have you been to on holiday?

What was the weather like in the place you went?

What is the weather like in different parts of the world?

Near the North and South poles, the weather is very cold

Near the Equator, the weather is very hot

In between, the weather is mild, and can be hot or cold, like in Britain

Very cold

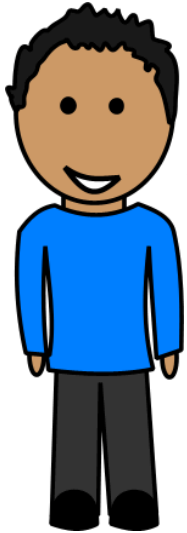

Mild

Very hot

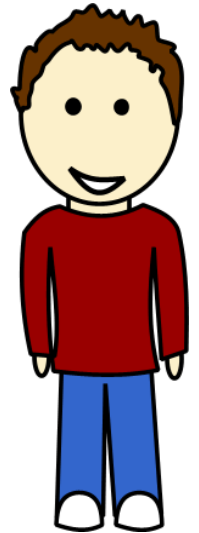

Where is the best place to go on holiday for these people?

I want to go somewhere where there's lots of snow and I can go sledging. I don't like hot weather. Where should I go?

I'd like to go somewhere not too cold but not too hot. I don't want to travel very far. Where should I go?

I want to go somewhere really, really hot. Also I'd quite like to see a desert. Where should I go?

What sort of special clothing or equipment might you need if you were going on a trip to...

...the mountains

...the desert

...the South Pole

...the rainforest

What will the weather be like? Click the labels to compare.

mountains
