Bush Hill Park	42	55	65	29
Starks Field	36	71	38	25
Houndsfield	30	58	42	19

**YES – HIGHFIELD IS IN THE TOP THREE!**

**What an amazing achievement for all our staff, Governors, families and Friends. Thanks to all our parent/carers who read the news on Friday and sent their congratulation!**

**Just some explanation of how the league tables work:**

The first column shows the percentage of children at each school who reached the Government’s expected standard in reading. The second column gives results in writing, while the third relates to maths results. The fourth column shows the percentage of pupils who reached the expected standard in every one of the three tests.

Schools are ranked in order of this figure and, where more than one has the same result, in alphabetical order. This year, progress was calculated by subject, rather than “expected progress” on the overall result. This data is not included.

Across England, only 53 per cent of 11-year-olds reached the expected standard in all three tests. Previously, the tests in the final year of primary school were measured in levels, with schools classed as failing if fewer than 65 per cent of pupils reached level four in all three tests. In the new assessments, the expected standard is set at 100 but scores can range between 80 and 120. This means that anything at 100 or over is, in effect, a pass, and anything under is a fail. The results have been scaled to 100 per cent on this table.

**What a fantastic end to the Autumn Term. What a very Merry Christmas at Highfield!**
