

## Unity is Me

My bones hold me body together like bricks and cement to make a strong wall

My heart and my brain working together

All of the parts

Aorta, right atrium, left atrium, right ventricle, left ventricle, the pulmonary artery,  
pull...pull!!

Right brain, left brain, cerebellum, hippocampus, hypothalamus and cerebrum

We need them all to help us think and tell our bodies what to do

Getting sorted, organised

Wake up, get dressed

Brush teeth, eat breakfast

Walk to school...

Unity is our class

A colony of ants carrying sand to make a hill

We listen, share and persevere

Working hard, treating each other with respect

Helping each other to succeed

Like branches on a tree

Reindeer pulling a single sleigh

Trying and trying and never giving up.

Unity is our school

Reading zone, Reception, old Office, new Office, thinking Room, Medical Room, Staff  
Room, playground, Blue Cabin, Gaudi garden, Dali Class and farm.

The pupils, the teachers and all the different staff

The School Councillors work to make the school united like a water cycle

The river flowing to the sea

All the stars in our galaxy

The world, the school and you and me

All united in Unity.
