

AT HIGHFIELD WE LISTEN..... 2015-2016

The School Council

Our work, with the North London Hospice continues. They led on our annual event of Highfields Got talent, ran a Business Enterprise Week, and were part of many more whole school priorities.

Wild Life Area

The wild life area has proved very popular. There is a pond, and other natural habitats where animals and insects can reside, such as bats, hedgehogs, ants and worms. The children are fascinated observing them. They love the Insect Hotel!

Secret Garden

The children along with our amazing parent volunteers have worked really hard on the Secret Garden, it has been cleared and developed into a place where the children are able to grow vegetables in their own class allotment space

Trips

A number of our children have told us how much they enjoy going on trips, so this year we excelled and arranged a trip per term for every class, such as going on The London Eye, London Aquarium, Kidzania WE day and many more!.

Poet Cheryl Moskowitz

We have been very fortunate to continue employing our wonderful Poet in Residence this year. Cheryl has added to the children's love of poetry and their literacy skills. National Poetry Competitions have been won, including the Stephen Spender Award! Our pupils have performed their poems at a National level.

Pupil Leaders such as Team Captains, Mini Mentors, Buddies, Young Interpreters, Anti-Bullying Ambassadors and the Eco- are working very hard in ensuring the school is well lead, they play a vital role!

Michael Rosen

Mr Rosen the Famous Poet spent the whole day at Highfield!! He worked with all the children and we all joined in reciting his poems. He really made us laugh. It was a day we will never forget!!

TO THE CHILDREN:

Selecting the School Values for each term has been the role of the school council, a very popular value this year was COURAGE

More IPADS

As requested by the children we were able to purchase a further set of IPADS for 2 more classes! The children enhance their learning with the use of this technology!
