OFSTED

- Due to the excellent leadership and management of the early years, the Nursery and Reception classes are a hive of activity focused on fun and learning. The youngest pupils have an excellent start to their school life. **The school makes significant efforts to smooth pupils' way into school, including home visits, parents' days and frequent formal and informal communication with parents.**
- Staff make the learning environments enticing and plan challenging activities to stretch and interest all the pupils, whatever their levels of learning. The outside learning environment is used to promote literacy and numeracy skills through a whole range of play and formal activities.
- From an early age, behaviour is excellent. Pupils work together calmly and in a very friendly manner. Their levels of concentration are far beyond those normally seen for children of this age.
