Example for the characteristic of vulnerable:

The Russian man comes across as vulnerable because in the text it says "...but anyone could see that she was helping him along, not him helping her." This tells us that the man is in desperate need of help and is reliant on the strength and support of others. In addition, this could mean that he has not received help for a long time and is grateful to Mother for offering to look after him.

Notice that the paragraph is split up into 3 sections. The explanation section needs to explain what you have stated in the beginning of the paragraph. It is essential that you use your plan, this will help you write your paragraphs.

Task

Write your **Point**, **Evidence**, **Explanation** paragraphs for the points that you have made in your plan. Look back to the example to help you. In total, you should write 4 paragraphs (one for each characteristic).

Write your paragraphs below.
